

Enterprise Cryptocurrency Payment Processor

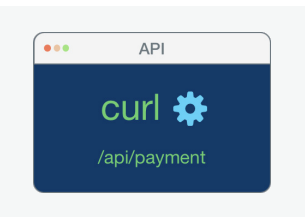

Clean. Convenient. The future, now.

Stellar Network
Tier 1 Validator

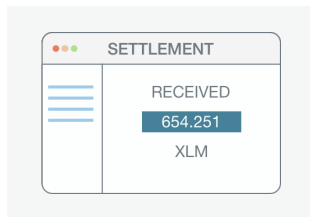

COINQVEST is the streamlined enterprise cryptocurrency payment gateway and API. Our dynamic platform offers seamless programmable cross-blockchain transactions with security and speed. All the time, wherever your customer is.

How It Works

IMPLEMENT

Use proprietary merchant-centric API or web-based button to integrate into your existing checkout process.

RECEIVE

You can now accept major cryptocurrencies alongside traditional payment options.

WITHDRAW

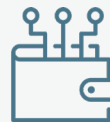

Automatically deposit funds into your account in your currency of choice (FIAT or cryptocurrency).

Secure

You and your customers are assured accurate and successful settlements.

Low Fees

Compared to traditional methods, transactions carry extremely low fees.

Start To Accept

Bitcoin

Ethereum

Litecoin

Ripple

Lumens

No Risks

No chargebacks. Conversions happen instantly, virtually eliminating currency fluctuation risk.

Sign up at www.coinqvest.com and receive early-adopter privileges.

COINQVEST

A powerful partner in your business strategy

Low fees & no chargebacks

Accounting friendly

Backend analytics

Realtime settlement times

Compliance enabled for KYC and AML

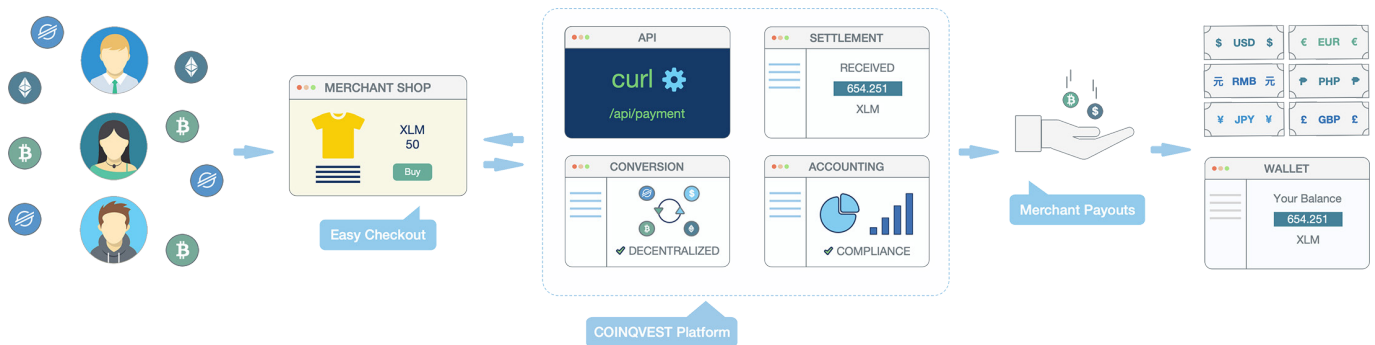

Customer invoices

No minimum transaction limits

Increase your innovation footprint & attract new customer segments

Blockchain Technology

Backed by the Stellar Consensus Protocol (SCP), COINQVEST's platform and transactions are secure, fast, and indelible.

This happens instantly, virtually eliminating currency fluctuation risk. Both you and your customers are assured accurate and successful settlements.

Transactions are written to the SCP ledger, routed through our network, and converted to your preselected FIAT (or crypto) currency.

Implementation by developer-friendly and well-documented HTTP REST API. Or by simple web-based check-out button.

COINQVEST focuses on your cryptocurrency payment flow.
You focus on your business.
